

INSTALLATION + RENTAL PROGRAM

HASSLE-FREE INTEGRATION. FLEXIBLE OPTIONS.

SPECS:

- Two simple sizes: Up to 60 / 125 GPM
- Works at any flow rate up to max capacity
- Negligible pressure drop at max flow
- 2" NPT female fittings for fast install

DISTRIBUTOR & RENTAL MODEL:

- Rental cost less than average monthly salt spend
- 3-Year Rental Program: No upfront cost + free part replacement within 1 week
- Flexible commission models for distributors
- Option to purchase or upgrade at term end

NANOBUBBLE MAIN LINE SOLUTION

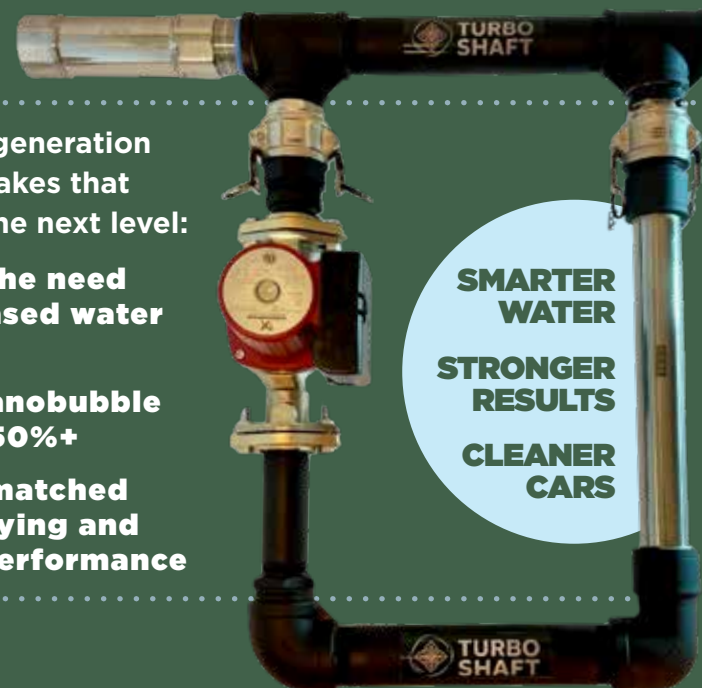

FOR PEAK CAR WASH PERFORMANCE

Cleaner, drier, shinier cars with less water, no salt, and zero maintenance.

The Shaft by Chemical Reduction Solutions, redefined water performance in over 100+ car washes worldwide.

Now, the next-generation **Turbo Shaft™** takes that innovation to the next level:

- 💧 Eliminates the need for a salt-based water softener
- 💧 Increases nanobubble output by 150%+
- 💧 Delivers unmatched cleaning, drying and chemistry performance

BENEFITS + TECH

TRANSFORM YOUR WATER. TRANSFORM YOUR WASH.

- No water softener required
- Extended RO membrane life
- Improved chemical dispersion
- Reduced water usage
- Scale-free pipes & injectors
- Faster drying, fewer spots
- Enhanced foam performance

Turbo Shaft™ neutralizes the negative effects of hard water, scaling, corrosion, clogging, and pressure loss without salt or traditional softeners. Its advanced physiochemical process changes how water behaves, delivering the benefits of softened water with none of the drawbacks.

**SCALE-FREE
GUARANTEE:**
IF SCALE CLOGS
A NOZZLE DURING
THE RENTAL
PERIOD, WE'LL

PERFORMANCE & EFFICIENCY

ENGINEERED FOR PERFORMANCE AND PROFIT

BOOST WASH RESULTS

- Improves presoak penetration and foam coverage
- Reduces spotting and drying time
- Enhances color and fragrance release

CUT WATER & ENERGY COSTS

- Save up to 1,000+ gallons/day on GAC backflushing
- Save up to 2,000 - 8,000 gallons/day on softener regeneration

PROTECT YOUR EQUIPMENT

- Prevents injector fouling and scale build-up
- Removes algae and biofilm from pipes, tanks and the wash bay

SMART & EFFICIENT

- Uses just 3.15 KWH/day (~\$0.55/day)
- Programmable via mobile app for business hours only
